

CT250 Chicken Trailer

Mid-scale mobile housing for pasture-raised operations up to 250 birds — the point where the hobby setup ends and the serious egg business starts.

Who it's for

You've outgrown the 100-bird setup, or you're starting a pastured egg operation properly. The CT250 is built for producers running 100 to 250 layers on rotation — heavier chassis, bigger solar, and an isolated egg-collection room so collection is quick and clean.

Specifications

Capacity	Up to 250 laying hens
Chassis	Heavy-duty galvanised steel
Axle	Solid heavy-duty
Towing	Tractor recommended / 4WD
Nesting	4-hole roll-away system
Solar	200W system
Control	ChickenMaster Pro control box
Doors	Automatic side doors + lighting
Access	2x hatch doors for head-counts
Collection	Isolated egg-collection room

Build the system around it

A trailer is a third of a mobile pasture setup — feed and water move too. Most CT250 owners pair it with:

1 Tonne Feeder Trailer

A tonne of weather-protected feed follows the flock — fewer refill runs.

Standard IBC Trailer

1,000L of water to wherever the birds are.

Electric fence kit

Keeps the flock where the rotation needs them.

Add-ons

Misting system · nipple drinker station · custom branding logo · electric fence kit · IBC tank & trailer · 1T feeder trailer

Thinking 250 birds? Tell us what you're running.
