

CT550 Chicken Trailer

Commercial-scale mobile housing for flocks up to 550 birds — full mobility, full automation.

Who it's for

Commercial-scale housing that still moves with the rotation. The CT550 runs a double-sided conveyor nesting system, automated side doors and a 200W solar array — built for producers running a serious pastured egg operation off a tractor or 4WD.

Specifications

Capacity	Up to 550 laying hens
Chassis	Heavy-duty galvanised steel
Axle	Solid heavy-duty
Towing	Tractor / 4WD
Nesting	8-hole roll-away, conveyor belt
Solar	200W system
Control	ChickenMaster Pro control box
Doors	4x automatic side doors + lighting
Access	2x hatch doors for head-counts
Collection	Conveyor egg collection

Build the system around it

A trailer is a third of a mobile pasture setup — feed and water move too. Most CT550 owners pair it with:

1 Tonne Feeder Trailer

A tonne of weather-protected feed follows the flock — fewer refill runs.

Standard IBC Trailer

1,000L of water to wherever the birds are.

Electric fence kit

Keeps the flock where the rotation needs them.

Add-ons

Misting system · nipple drinker station · custom branding logo · electric fence kit · IBC tank & trailer · 1T feeder trailer
