

Standard IBC Trailer

A tonne of water where you need it — 1,000L for stock, troughs and remote paddocks.

Who it's for

A tonne of water on all-terrain wheels. Cart 1,000L across the property to stock troughs, remote paddocks or wherever the rotation has moved the flock — galvanised chassis, outlet valve and an adjustable levelling stand for a steady draw.

Specifications

Capacity	1,000L
Chassis	Heavy-duty galvanised steel
Wheels	2x all-terrain (235/75R15LT)
Tank	1000L IBC (cage + pallet)
Chassis size	1.2 x 1m
Outlet	Outlet valve
Stand	Adjustable levelling stand
Towing	50mm ball-hitch coupler
Assembly	Turnkey, pre-assembled

Build the system around it

Water is a third of the mobile setup — housing and feed move too. Owners often pair it with:

Matching chicken trailer

Water follows the birds to fresh ground.

Mineral Trailer

Minerals and water out to the same grazing paddock.

Nipple drinker station

Turns the tank into clean drinking lines for the flock.

Add-ons

Nipple drinker station · custom branding logo
