

NB100 Nesting Box

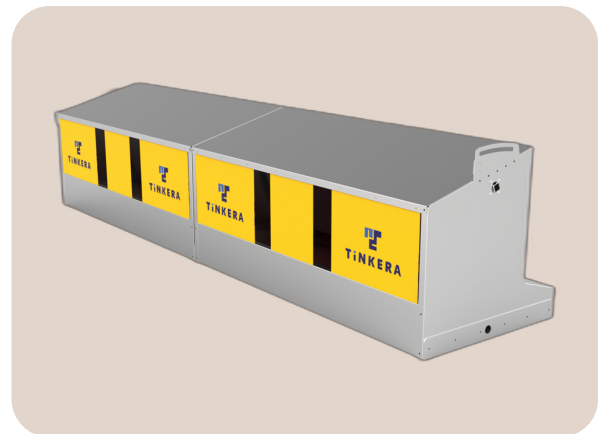

The hobby-farm nesting favourite for flocks up to 100 birds — dual roll-away collection.

Who it's for

The hobby-farm favourite. Two roll-away modules on a shared exclusion-gate actuator give you dual collection bays — the step up from the 50-bird box when the flock grows but the shed stays put.

Specifications

Capacity	Up to 100 birds
Construction	Galvanised steel
Configuration	Single-sided (2x C50 modules)
Nesting	Egg-rollaway
Collection	Dual rear collection bays
Roosting	Levelling: spirit-level control
Gates	Shared-actuator exclusion gates
Flooring	Astroturf + privacy flaps
Assembly	Flat-packed

Build the system around it

Nesting boxes drop into a fixed shed or a mobile setup. Owners often pair them with:

Matching chicken trailer

Take the same flock mobile — clean ground, rested paddock.

30-egg trays

Stackable trays for quick, clean collection.

Spare astroturf pads

Easy-swap pads keep the nesting surface fresh.

Add-ons

Bottom-mounting frame · angle-adjustment hardware · ChickenMaster Pro · solar panel + battery · external collection-bay lid
