

NB900 Nesting Box

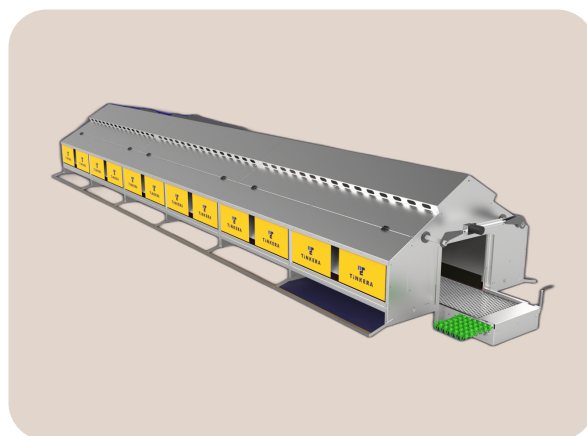

Second-largest nesting setup — built for volume collection up to 900 birds.

Who it's for

Second-largest in the range, built for volume. Three conveyor modules feed a central collection bay so a large flock's eggs come to you — clean, sorted and quick, with roosting and ventilation across the run.

Specifications

Capacity	Up to 900 birds
Construction	Galvanised steel
Configuration	Double-sided (3x C300 modules)
Nesting	Egg-rollaway + 500mm conveyor belt
Collection	Central conveyor collection bay
Roosting	12x 1.2m roosting bars
Gates	Shared-actuator exclusion gates
Flooring	Astroturf + privacy flaps
Assembly	Flat-packed

Build the system around it

Nesting boxes drop into a fixed shed or a mobile setup. Owners often pair them with:

Matching chicken trailer

Take the same flock mobile — clean ground, rested paddock.

30-egg trays

Stackable trays for quick, clean collection.

Spare astroturf pads

Easy-swap pads keep the nesting surface fresh.

Add-ons

Bottom-mounting frame · angle-adjustment hardware · ChickenMaster Pro · solar panel + battery · external collection-bay lid
